TIRANE - ALBANIA

# VISION

We want to be recognised as a leading provider of software solutions. We are committed to earning our clients' trust through outstanding execution and uncompromising dedication to their success.

# PHILOSOPHY

We like to hold ourselves to the highest professional standards. This speaks in equal measure to the quality of our work, our dedication and the methods we choose to utilize in our work.

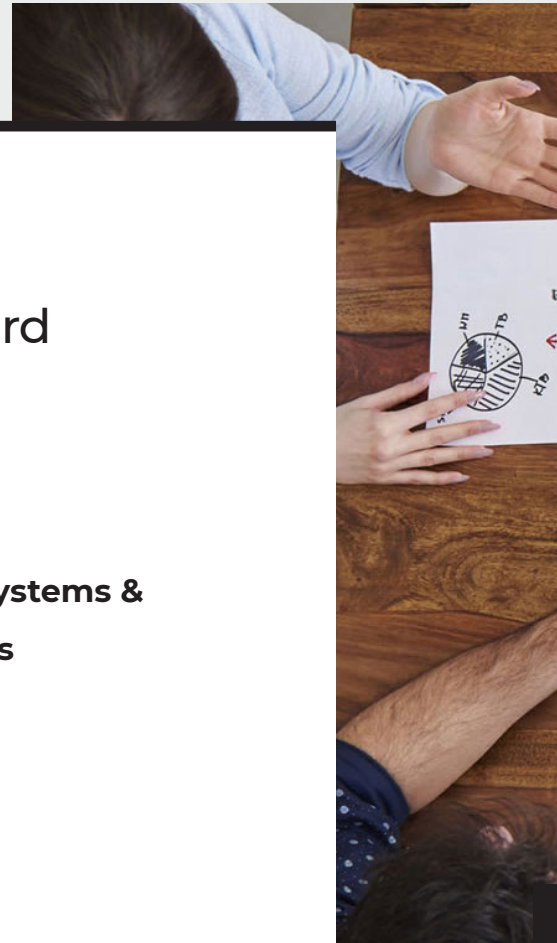

## Some hard facts

**Advanced Systems & Technologies**

Founded:

**2017**

# Technologies

## MISSION

ASTech's mission is to help our clients achieve and exceed their growth and revenue goals. We seek to accomplish this through the creation and superior execution of revenue-driving solutions. We are dedicated to developing fully customised, accountable applications to address each client's unique situation. We are further committed to analysing the analytics data we collect and translating it into kernels of actionable business intelligence that can directly impact each client's growth and success.

### BRAND IDENTITY

Our team works collaboratively with you to create the most recognizable aspect of your brand; the identity. The creative process is supported by our Discovery Phase, a diligent research method we use to uncover the audience, values, and position of your brand. This foundation, where creative meets strategic, results in a truthful, consistent, and versatile identity system. We want to take your brand from "great" to "better than everyone else".

### UI/UX DESIGN

Branding and design go hand in hand. Great design adds meaning to any brand and helps communicate your story to customers. Our expert designers turn every unique touchpoint of your business into an essential, fully-formed piece of your brand. We take all aspects of design very seriously – we'll ensure every visual element is beautifully executed and serves to reinforce your brand values. A stunning design will fill your employees with pride and impress your customers on both a conscious and subconscious level.

### WEB DEVELOPMENT

Completely customisable high-quality robust websites. It's not just the website, we create a seamless user experience that keeps them coming back. We are recognised among leading custom web development companies.

### MOBILE DEVELOPMENT

We design, develop, integrate and maintain applications that help companies to successfully market their businesses to a global audience. If you are looking to build a mobile app that can do best for your business, with experience and expertise in major platforms, the company services to the needs of diverse businesses across the world.

# Advanced people with passion technology

## Amazing developers & famous designers

### 03 // Client :

- » Delmonte Srl

# 13. forMAW

In a constantly changing business environment, it is essential for companies and workers to have the ability to “shape” their professionalism to increase effectiveness and reduce costs.

We transform people’s skills and abilities for their professional satisfaction. The change underway is so large and fast that it is difficult to predict which business models will be successful, which skills will be needed and how to equip people with these skills. Only organizations made up of “great people” will be able to innovate to anticipate or react to change.

People must acquire the skills to enter the world of work, update them continuously to stay there and improve their professional position.

## 01 // Project :

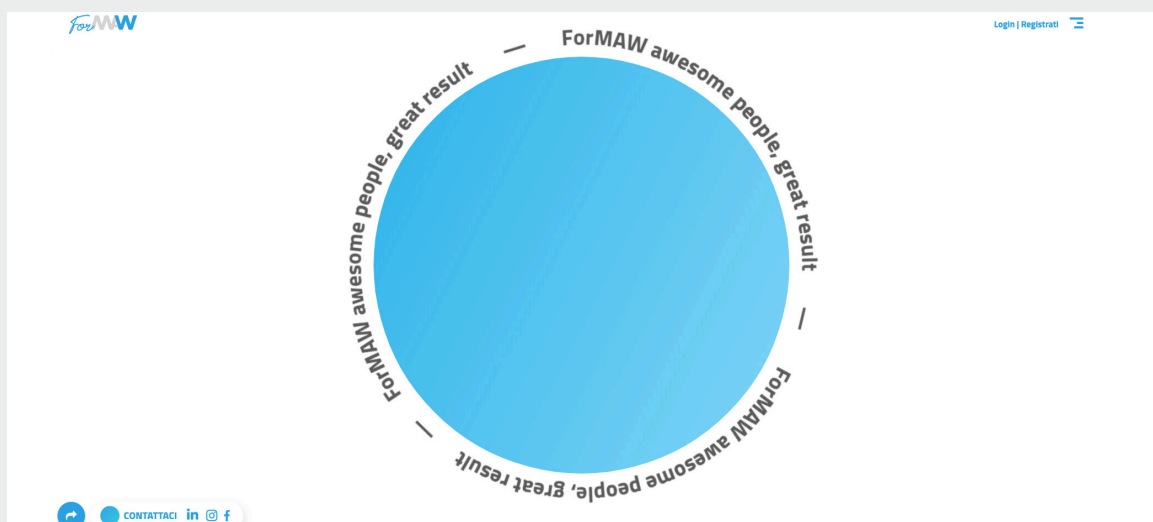

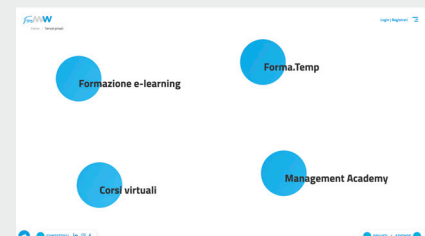

- » forMAW
- » <https://formaw.it/>

## 02 // Description :

- » We transform people's skills for their professional satisfaction

## 03 // Client :

- » forMAW S.r.l.

### 02 // Description :

- » The principle objective of AFSA is to protect the interests of consumers and investors, closely linked to the safety and soundness of supervised entities, by ensuring law enforcement.

### 03 // Client :

- » Financial Supervision Authority

# ASTech 2021

## YOUR DIGITAL PARTNER

Strong support of your digital innovation for a strong and lasting relationship.

Digital is undergoing radical changes and becoming more competitive. Simple web creation is now but a small part of the digital ecosystem. At ASTech, we understand that in order to make our relationship more effective and long-lasting, we need to offer different value.

These values are based on listening, innovative support, and quality. It enables us to create strong partnership relations in which each member is accountable for the project's success. We form a single team, working together in the long term.

# ASTech

## Summary and Contact

---

# Thank you.

### A short summary

A key component of your transformation, your digital strategy requires special attention. We provide you with the support you need all during your project. Through regular workshops, brainstormings and idea sharing, we help grow your initial idea into a cutting-edge digital solution.

We are a group of passionate developers and designers.

We craft innovative and intuitive digital solutions for end users. Our team leverages designs, development processes and software technologies that are best suited for the problem at hand to deliver software solutions that delight our customers. Our focus on quality and performance ensures that our solutions scale optimally with our clients' user base and transaction volumes. We build productive web platforms, mobile apps and offer IT services.
